

BARRY WEBB

Supply Chain Leader and FP&A Architecture toolkit

Hoschton, GA • 770-861-4415 • barry@eagleeyeadvisors.us.com

Executive Summary

Barry Webb is a global supply chain and financial architecture leader with more than 30 years of experience designing and delivering transformation programs across logistics, distribution, FP&A, CTS profitability modeling, and AI-enhanced analytics. His career spans Andersen Consulting (Accenture), PwC, IBM, Adjoined, Peachstate, fortna, and Argon & Co, where he has led multi-site initiatives for Fortune-class clients.

As founder of Skopos Advisory LLC, Barry builds advanced FP&A frameworks, scenario engines, and AI-driven analytical systems that improve forecasting accuracy, reveal profitability insights, and support executive decision-making. He is known for structured thinking, analytical rigor, and the ability to translate complex operational and financial dynamics into clear, actionable strategies.

Core Competencies

- Supply Chain Strategy
- Warehouse & Distribution Center Design
- FP&A Architecture
- CTS Profitability Modeling
- Scenario Engines & Sensitivity Analysis
- AI-Enhanced Analytics (through Skopos)
- Python Automation (through Skopos)
- Executive Communication

Professional Experience

TPG / Crimson & Co / Argon & Co — Principal Consultant 2017–2026 | Atlanta, GA

Deliver warehouse and distribution center designs utilizing Financial Planning and Analysis (FP&A) frameworks and Cost to Serve (CTS) methodology. Develop and present executive-ready solutions, and support sales pursuits.

BARRY WEBB

Supply Chain Leader and FP&A Architecture toolkit

Hoschton, GA • 770-861-4415 • barry@eagleeyeadvisors.us.com
